ABOUT US

About

Chriswats IT Solutions was established in 2013 to become the preferred destination for Computer Fixing/Repair, New and/or Refurbished Computers, Computer Parts, Computer Accessories, Gaming PCs and Office Supplies.

With Chriswats IT Solutions you can buy all types of computer parts and peripherals, and get them delivered to your Office or Residence with our express delivery options.

Chriswats IT solutions is utilizing multiple convenient payment options including cash on delivery (COD), where you pay to the courier upon receiving your items. Our team is widely spread throughout the region in order to support all Chriswats IT Solutions customers wherever they are. The team works hard to make sure your problems are resolved. The staff are computer experts (and gaming too) and will be ready to help you with your PC technical queries and provide you with the best support.

Mission Statement

To provide quality Information Technology services that free up time, money and resources to enhance efficiency.

This is to be achieved by providing an on-site visit upon customers call to solve any IT problems at the comfort of their office. We are dedicated to supplying the highest quality computer accessories yet at a reasonable price to customer's destination.

CCTV \$ Security

Video surveillance solutions can help reduce crime and provide valuable insight and documentation for businesses. As a provider of security solutions for businesses, we can install an effective security surveillance camera system that provides visibility over your entire facility to keep your property and employees secure.

In addition, video surveillance systems provide records of key events for documentation and investigative purposes. We install wired and wireless IP cameras, monitors, Digital Video Recorders (DVRs), and more from many of the top security companies in the industry including Dahua, AXIS, Bosch, Honeywell, Pelco, Lenel, Avigilon, Milestone, HIKVision, and Genetec, which ensures that our clients' video surveillance systems are reliable and meet their facilities' unique video surveillance needs.

Local Video Surveillance

This system includes installation of all the interior and exterior security cameras your business needs, along with on-site DVR video storage, to provide 24/7 surveillance. We also provide live remote viewing access so you can see what's happening at your business anytime. This is ideal for retail facilities, convenience stores, and other small businesses.
